

iShares S&P North American Technology Sector Index Fund

All data as of September 30, 2009

FUND DESCRIPTION

The iShares S&P North American Technology Sector Index Fund seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of U.S.-traded technology companies, as represented by the S&P North American Technology Sector Index™ ("the Index").

INDEX DESCRIPTION

The Index has been developed as an equity benchmark for U.S.-traded technology related stocks. The Index includes companies in the following categories: producers of sophisticated computer-related devices; electronics networking services; producers of software and consultants for information technology. It is a modified capitalization-weighted index and component companies must meet objective criteria for inclusion. Reconstitution is semi-annual.

Fund Performance History as of September 30, 2009

The performance quoted represents past performance and does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than the original cost. Current performance may be lower or higher than the performance quoted. Performance data current to the most recent month end may be obtained by calling toll-free 1-800-iShares (1-800-474-2737) or by visiting www.iShares.com.

After Tax Held Returns represent return after taxes on distributions. Assumes shares have not been sold. After Tax Sold Returns represent the return after taxes on distributions and the sale of fund shares. Returns are average annualized total returns, except those for periods of less than one year, which are cumulative. Market returns are based upon the midpoint of the bid/ask spread at 4:00 PM Eastern time (when NAV is normally determined for most iShares Funds), and do not represent the returns you would receive if you traded shares at other times.

Performance information for the Index assumes reinvestment of all income and excludes management fees, transaction costs and expenses. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on the investor's tax situation and may differ from those shown. The after-tax returns shown are not relevant to investors who hold their fund shares through tax-deferred arrangements such as 401(k) plans or individual retirement accounts.
