To major in Finance, a student must take core course FNCE 601 (Corporate Finance); core course FNCE 602 (Macroeconomics and the Global Economic Environment); and FOUR credit units offered only in the Finance Department, subject to the following:

- If you waive FNCE 601, you must take five credit units offered only in the Finance Department.

- No more than one credit unit may be an Advanced Study projects (FNCE 890) or an Independent Study (FNCE 899). There are a few exceptions to this rule for FNCE 890. Please see the department advisor for guidance.

- If a course is cross-listed with Finance, in order to apply the cross-listed course to the Finance major, you must be registered for the “FNCE” course.

Although the student is free to take any courses within the Department’s offerings, subject to the above restrictions, the courses can be clustered to cater to a variety of intellectual or career interests. Several types of specialized programs are listed below.
